

PATIENT INFORMATION SHEET

Neomycin sulfate

(N-001)

Your patch testing results indicate that you have a contact allergy to **Neomycin sulfate**. It is important that you familiarize yourself with this chemical and take steps to avoid coming in contact with it.

What is **Neomycin sulfate** and where is it found?

Neomycin is an antibiotic, unrelated to penicillin, which is used externally to treat burns, wounds and infected skin conditions, as well as, eye ear and nose infections. It can also be encountered in root canal and some other dental treatments. Further research may identify additional product or industrial usages of this chemical.

What else is **Neomycin sulfate** called?

This chemical can be identified by different names, including:

Biosol, Neloate, Nivemycin, Fradiomycin, Neodecyllin, Pimavecort, Framycetin, Neomas, Sofra-Tulle, Mycifradin sulphate, Neomin, Soframycin, Myacyne, Neomycin undecylenate, Vonamycin Powder V, Mycifradin, Neomixr 325 and neomixr AG 325

This may not be a complete list as manufacturers introduce and delete chemicals from their product lines.

THINGS YOU CAN DO TO HELP MANAGE YOUR CONTACT ALLERGY

Be vigilant... read the product label. Always take the time to read the ingredient listing on product packages.

This should be your first step each time you purchase a product as manufacturers sometimes change product ingredients. If you have any concerns ask your pharmacist or your doctor.

Test the product first. If you have purchased a new product you should test it on a small skin area to see if you get a reaction before using the product on larger skin areas.

Advise people you obtain services from of your contact allergy. This should include people like your pharmacist, doctor, hairdresser, florist, veterinarian, etc.

Inform your employer if the source of your contact allergy is work related. You should identify the specific source of the chemical and take the necessary steps to avoid further exposure. Protective wear may be adequate or you may need to make a change in your work activities. Both you and your employer benefit when the cause of your occupational dermatitis is eliminated.

"Google" it. The internet is an excellent source of ingredient information that can be searched by product, by company and by specific chemical. Some helpful independent internet links

include: www.nlm.nih.gov/pubs/factsheets/factsheets.html (U.S. Dept. of Health and Human Services;

alphabetic list) www.nlm.nih.gov/pubs/factsheets/factssubj.html (U.S. Dept. of Health and Human Services;

subject list) www.cosmeticsinfo.org (Cosmetic Industry Category Ingredient

Database) www.whatsinsidescjohnson.com (information on all S.C. Johnson product ingredients)

If you have any future contact dermatitis concerns or questions, please call the doctor's office.
